Dear Peter,

It is my great pleasure to recommend both Noa and Alistar Barrett for the Green Mountain Academy ski program. I have known both of these boys on a personal level for 6 + years, and both are well mannered, hard working and exceptional athletes! I have coached both of them in soccer for several seasons and their skill level is beyond many in their age group. They would come to each training session ready to work hard, listen and lead by example. They were both a joy to coach season after season.

On a personal level, both boys have always been well-mannered fun kids in social settings. I have personally seen acts of kindness towards other kids that sets them apart. Noa and Alistar both have a competitive edge and drive that makes them exceptional athletes. Being close in age, both are always competing against each other in games like soccer and basketball which gives them a competitive edge.

It is my strong opinion that Noa and Alistar would be great additions to the Green Mountain Academy and both have my strongest recommendation. Please feel free to contact me if you have any questions regarding their character on or off the field.

Sincerely,

Eduardo Rovetto
