

Arsha Aghdasi

My name is Arsha Aghdasi, an international stunt man. In my life, due to my job I've met too many people with adventurous spirit, people with good shape body, healthy and very strong. I met Saeed some years ago in a sky diving event. He was on a power wheelchair and we were in contact via social media but on that event we met each other as he was going to sky dive for the first time. We have never the experience of tandem skydiving of a person with disabilities in Iran. He was very determined and very eager to experience sky diving. After this experience, we were more in touch with each other and he was always active in different fields of adventure. He is a talented person with fantastic ideas for adventure. He is well known in field of adventure and is an inspirational lecturer. He is the head of a group of people with disabilities, he took them to adventurous trips and they are very active in Iran. For sure obstacles have no meaning for Saeed and he always know how to remove them to go ahead.

I am aware of his idea of going to Dorfak peak to do cliff camping. He got some guidance from me and I know he always work with the best teams. I am sure he can do it in spite of his severe disabilities. We are happy to have a person like Saeed to show us the different and bright aspects of life and he is a good example of a person who can make this world a better place to live.
