

Letter of Recommendation

My name is Conor Davis, I'm the Big Mountain and Backcountry Program Coordinator for the Sun Valley Ski Education Foundation. The past two ski seasons I was Molly's head coach, and I've really enjoyed getting to know her.

Molly and I have spent a lot of time training and on the road traveling to Jr. IFSA competitions together, and I admire her spirit on every trip. She sets and achieves individual goals for competition and training, but Molly is a "Team-Player." This past season Molly approached me with the idea of becoming a "team captain" and she put in extra effort to help out teammates and coaches alike. She is early to practice and she offers to help load the van, cook dinner at the condo, etc... She is a friend to all and I know the younger girls on the team look up to her.

Molly is hoping to have a life which is dominated by fun and adventure. She is determined to explore this world and right now she needs help making her dreams happen. Molly has set up a Kickstarter campaign for her "SASS Experience" in either Argentina or in Japan. The other coaches and I have all contributed towards this, and she is working hard all summer to save up. She also asked me to recommend her for your scholarship and I cannot think of a better candidate. Please take a deep look at her application and thank you for your consideration.
