

Whistler Freeride Club

I have been fortunate to know Karina Jorgensen-Fullam for the past 6 years in my capacity as her coach at the Whistler Freeride Club, where Karina is an athlete on our competitive Freeride team.

In the time Karina has been with the team she has experienced the full spectrum of what being a competitive athlete can dish out. She has earned podiums at every level on the North American Freeride circuit. It is her reaction to the other side of the coin that is the most impressive however; through injuries, losses and setbacks, Karina has never faltered in her belief that hard work, perseverance, and a great attitude will provide the paving stones to success.

During Karina's time in the Whistler Freeride Club I have watched her grow from a young talent who was unsure of her place in the sport, to a leader on our team and a mentor to younger athletes on our team.

Karina has also earned in 2018 the Flyin Ryan Hawks Award. This award, presented by the Flyin Ryan Hawks Foundation, is an award given to one male and one female athlete each season who embodies a set of core values that can be seen in their daily attitude and decision making.

I believe Karina's work ethic, motivation and personality are great attributes that will take her great distances in life. I would not hesitate to recommend her for any role or scholarship she applies for.

Please feel free to contact me with any questions regarding Karina Jorgensen-Fullam.
