To Whom It May Concern,

It is my pleasure to recommend Meagan O'Neill for the Adventure Scholarship Program.

I am Justin Olson, District Conservationist for the Natural Resources Conservation Service. I had the pleasure to supervise Meagan as a Soil Conservationist Intern in the Viroqua WI field office. During Meagan's time working in my office, she demonstrated professionalism and independence. Meagan was assigned to various field assignments where she inspected conservation practices, measured, and gathered data for each project. She also assisted the soils team mapping soil in Northern Minnesota. She showed patience, learned quickly, and was outgoing. More importantly, Meagan had a positive attitude and an open mind.

I'm confident that Meagan will excel in her woofing detail in Alaska and make a meaningful impact. I believe her character and values align with your foundation's core values, making Meagan an excellent candidate for the Adventure Scholarship Program.

Sincerely,

**Justin Olson**  
District Conservationist
