To Whom it May Concern,

I am writing to recommend Hazen Abott for consideration for the Flyin Ryan Scholarship to support his participation in the Junior Freeride Championship competition in Breckenridge, Colorado. I have had the privilege of coaching Hazen for the past 4 months, and have seen first-hand his exceptional dedication, skill, and passion for the sport.

At 12 years old, Hazen exhibits remarkable talent and determination on the hill. His natural athleticism sets him apart from his peers. Whether he is training or competing, Hazen consistently strives for excellence and pushes himself to new heights. As soon as Club time is over, he is immediately back out on the slopes to learn a new trick or attempt a new jump. In addition, Hazen demonstrates leadership qualities, he is still young but I believe his natural leadership will be a strong addition to his character in the future.

I truly believe Hazen is deserving of this support to further his skiing career in Breckenridge. I am confident in his dedication and character to excel both on and off the hill. He is a strong representative of not only Smugglers' Notch Ski Club but of the sport of Freeride skiing.

Please feel free to contact me if you require any further information regarding Hazen's character.

Sincerely,

Grifen Moller
