

To whom It May Concern:

I am writing this letter on behalf of August Enos. I have known August for the 2023/2024 school year. I am the Director of the Academic Success Program at Carrabassett Valley Academy in Carrabassett Valley, Maine where August goes to school and trains at Sugarloaf Mountain.

August is a hard-working student-athlete. She always shows up on the mountain and in the classroom ready to give it her all. All of her classroom teachers concur that she is a reliable and respectful student in their classrooms. August strives for excellence in everything that she is tasked with. On the hill, her coaches will also report that she is a fantastic teammate who demonstrates everything they want in their athletes.

August was nominated as February's community member of the month. Her teachers report that she is taking a leadership role with the other students. In addition, when CVA hosted The Special Olympics, she showed compassion and kindness to all of the Olympians who attended. Finally, she volunteered to help create a video for CVA's Scholarship Bash that raises money for deserving CVA student-athletes who, without the support of the community, would not be able to attend CVA.

I strongly recommend August Enos for the Flyin Ryan scholarship. Please let me know if you have any further questions.
