Subject: Letter of Recommendation for Brian Rice

Dear Flyin Ryan Adventure Scholarship Committee,

My name is Andy Weber, and I am the Head Snowboard Coach at Ski & Snowboard Club Vail, where I've had the privilege of coaching Brian Rice since 2020. During this time, I have watched Brian grow not only as an athlete but also as a leader, teammate, and person who embodies the spirit of adventure and passion that this scholarship represents. It's my pleasure to recommend him for the Flyin Ryan Adventure Scholarship.

Brian is one of the most driven and consistent athletes I've ever worked with. His work ethic is unwavering—he approaches every training session with focus, humility, and enthusiasm. Whether he's pushing his limits on snow or supporting his teammates, Brian leads by quiet example. His positivity and resilience uplift those around him, and his approach to challenges perfectly reflects the Flyin Ryan values of adventure, passion, and integrity.

Over the years, Brian has shown remarkable dedication to his progression as a snowboarder. He continues to set ambitious goals for himself, including continuing his progression during our upcoming training camp this fall in Stubai, Austria, and competing in the Big Air World Cup in China, an Olympic qualifier. These goals demonstrate not only his talent but his commitment to growth, learning, and representing Snowboard Club Vail and his broader community at the highest level.

The Flyin Ryan Adventure Scholarship would make a meaningful difference in helping Brian pursue these opportunities. The financial support would ease the burden of travel and training costs, allowing him to focus fully on preparation and performance. I have no doubt that he will use these experiences to inspire younger riders and share the same sense of purpose and adventure that drives him.

I wholeheartedly recommend Brian Rice for this scholarship. He exemplifies everything that the Flyin Ryan Legacy stands for, and I am confident that he will continue to carry those values forward in his snowboarding and beyond. Please don't hesitate to reach out if you would like any additional information.

Sincerely, Andy Weber
