To: Flynn Ryan Foundation
Adventure Scholars Application Review Committee

This letter is in reference to my recommendation for Tori Hammock's application to your scholarship program. I have known Tori for about two years as an instructor and tutor in the Veterinary Technician program at Santa Rosa Junior College. Tori is an incredibly dedicated student and always puts in the extra effort needed to ensure she understands the materials. She is an active participant in our hands-on activities, and I have frequently observed her sharing her knowledge with less-experienced classmates. She has an exceptional work ethic and successfully balances her veterinary work and coursework responsibilities.

Her dedication and enthusiasm are also evident in her activities outside of school. She has leadership roles in several organizations. Her uncle was a skydiver for more than 35 years, and with her drive to master new challenges I have no doubt that she will succeed in your program.

Sincerely,

Kris A. Clothier DVM PhD DACVM
Adjunct Instructor
Santa Rosa Junior College
